

MassWildlife Game Bird Daily Hunting Log

Thank you for choosing to participate in the MassWildlife game bird hunting log. You may be familiar with similar efforts in other states, however please only record hunting that occurs in Massachusetts. Please adhere to the following guidelines below.

INSTRUCTIONS:

- Record all hunting trips, even if you didn't flush or harvest a bird.
- Do not include hunting trips from commercial shooting preserves.
- Record your individual totals, not those of your hunting partner(s).
- Record whether you hunted on public land (Wildlife Management Areas, state forests, town property). Most un-posted land is privately owned.
- Use separate lines if you hunt on different properties in the same day.
- Record the number of hours you hunted to the nearest whole hour.
- Keep the log readily accessible so you can record your information immediately after each hunt!
- Do not count known re-flushes or birds flushed by others in your group.
- Record woodcock flushes even when hunting for other birds outside of the woodcock season.
- WMZ – Wildlife Management Zone, see page 3
